Thank you for agreeing to do this assessment for this child in their application to attend Austin Sunshine Camps. This will be used to gauge a child's readiness to attend a 10-day overnight summer camp with other children, therefore it is incredibly important that you are honest in your assessment of the child's behaviors. This is one part of an integrated assessment approach that will be used to determine camper readiness. ASC will also provide recommendations and support for families to help prepare their campers for summer camp, whether or not they are invited to attend.

PLEASE NOTE: This assessment is available online if you would prefer. Visit tinyurl.com/sunshinecampsready to fill out the form online.

Directions: Please circle an answer for each of the behaviors listed. If you have comments, you may put them at the bottom, but you don't have to.

1	Adjusts well to new teachers/adults in their lives.	Never	Sometimes	Often	Almost always	Unknown
